Total Number of minutes read

Your total number of minutes should equal 100. Last week seemed a little confusing. We will be keeping reading logs Monday-Friday. The minutes that you read over the weekend can count. You should remember to record them.

Each week you should read 100 minutes. Reading logs will be due each Friday.

Sorry for the confusion. I have realized that if something doesn't work, change it and make it work. Have a great week!
