

## Take Home Project

Third graders, here is your next assignment! I am giving you a choice of doing your project on either rocks and minerals or spiders. Attached is a rubric which I will use for grading your work. Hopefully through looking over this rubric you will gather a few ideas for your project. If you get stuck and cannot come up with any creative ideas, talk with me and I will help.

☺ Have fun!

**Project due date is October 26, 2007**
